New Tax Bracket over $100 Million `new_tax_bracket`
Categorical

Currently, the top income tax bracket for a married couple filing jointly in the U.S. is 37 percent on all ordinary income over $731,201, meaning that anyone making above that amount is taxed at the same rate, whether they make $750,000 a year or $5 million a year. Some have argued that households making $731,201 a year are not realistically in the same income bracket as those making several million a year, and have proposed adding additional brackets for those making over $1 million.If several new brackets were created for ordinary income, with the highest bracket on income over $100 million, what is the highest marginal tax rate you would support on those making over $100 million a year?

Code	Label	Count
1	The current rate of 37 percent	330
2	A 50 percent marginal rate on income over $100 million	259
3	A 60 percent marginal rate on income over $100 million	98

Wealth Tax Favorability   `wealth_tax`

Categorical

Legislation has been put forward that would progressively tax extreme wealth, starting with a 2 percent tax on household wealth more than 1,000 times the median U.S. household and then additional brackets at 4 percent, 6 percent, and 8 percent for wealth above 10,000, 100,000, and 1,000,000 times the median household, respectively.For example, with the current median household wealth, the 2 percent wealth tax would kick in at $192 million in household wealth, while the top bracket of 8 percent would be set at $192 billion.How [favorably or unfavorably] would you feel towards a wealth tax on those with 1,000 + times more wealth than the median U.S. household?

Wealthy Grid   `wealthy_grid`

Grid

To what extent do you [agree or disagree] with the following?

Rows	
Variable	**Label**
`wealthy_grid_1`	The wealthy have access to tax loopholes and strategies that aren't available to average taxpayers, and use them to avoid declaring income or paying a fair tax rate.
`wealthy_grid_2`	The wealthy have benefited the most from public investments that support the health, transportation, food, and housing of their consumers and workforce, and should therefore be expected to pay more in taxes.
`wealthy_grid_3`	Beyond raising revenue, the tax code is a useful tool for constraining inequality.
`wealthy_grid_4`	Passive investment income should not be taxed at a lower rate than income from wages.

International Tax Standards   `international_tax`
Categorical

There is a current global conversation happening between major countries about the need for international cooperation to set standards for how we tax the super rich. This could help prevent the very richest individuals from moving wealth offshore from the U.S. to other countries to avoid paying taxes owed, and help to create a baseline for how to tax the super rich effectively.How supportive are you of international action to set standards on how we tax the super rich?
